IMPOVERISHED CARIBBEAN NATIONS.

AmericasRelief Team is monitoring the following event

AmericasRelief Team's Emergency Center Report

The AmericasRelief Team's Emergency Center has not been activated; the Center is staffed to help coordinate the shipping of relief aid to victims of the event. However, we anticipate that air relief flights, ocean relief space and co-loading opportunities will develop. We will notify our colleagues, friends and partners of space-available opportunities as this emergency develops.

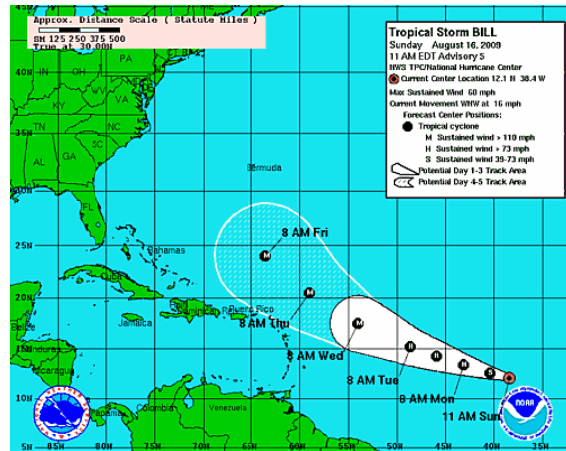

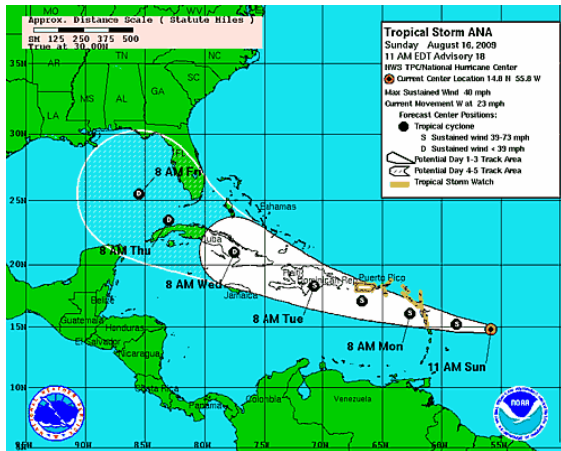

Tropical storms Ana and Bill move toward the D.R. and Haiti

MIAMI, Aug 17 –Ana, the first tropical storm of the 2009 hurricane season, formed early Saturday morning, while a strengthening depression just behind it turned into Tropical Storm Bill by 5 p.m.

Of the two storms, forecasters believe Bill appeared to have the better shot of becoming a hurricane.

The Hurricane Center's latest advisory Saturday showed Bill moving westward at 16 mph with sustained winds of 40 mph. Forecasters expected it to top 39 mph tropical storm status within 24 hours and to continue strengthening.

By Thursday, when it is expected to near Puerto Rico on its current track, it is forecast to be a hurricane, possibly reaching Category 3 power with winds topping 111 mph.
